

## Technical Datasheet

# AR-326 Moly MRO Oil

### Description

AR-326 Moly MRO Oil is perfect for use on weapons, locks, fine mechanics, parts, tools etc.

AR-326 Moly MRO Oil is a rust dissolving and rust protective lubricant which penetrates wherever there is a need for rust protection and lubrication.

AR-326 Moly MRO Oil is used in the textile industry, the machine tool industry, the motor industry, the shipyard industry and in the agriculture industry.

AR-326 Moly MRO Oil is protective against corrosion and safe to use on wood, plastic and all kinds of alloys.

AR-326 Moly MRO Oil leaves an acid-free protective oil film and can be used on wet parts.

### Properties

- against rust, copper rust and oxidation
- protects and lubricates
- with addition of molybdenum disulphide ( MoS<sub>2</sub> )
- penetrating effect
- non-corrosive
- acid-free
- can be used on wet parts
- protects against rust
- mixable with other oil products
- leaves a thin lubricating oil film
- the oil film does not have to be removed from engines before start
- very suitable for weapons and fine mechanics

Manufactured by :

**TW Chemical Products Scandinavia**

Distributed by Magna Industrial Co. Limited, Hong Kong

Telephone : (852) 25775187 Fax (852) 25773190 Email magna@magnagroup.com

*Important note: All information and technical data are based on tests which to our knowledge are correct and reliable. However, there are no guarantees. It is the responsibility of the user to make sure that the information is useable and complete in connection with the purpose in question.*

INFORMATION

# AR-326 Moly MRO Oil

## Technical and physical data

Part number	CK 001485
Packing	aerosol
Content	500 ml
Weight	399 g
Propellant	propane/butane
Base	acid free mineral oil
Density at 15°C	0.815
Flash point (concentrate)	177°C
Emptying rate	1.31 g/ sec
Content of solid-state component	>0.1%
Additives	MoS <sub>2</sub>
Additive function	rust dissolving/dry lubrication
